

CubeTriangle Alpha Smartphone:

Powering On/Off: Press and hold the side button to power on your CubeTriangle Alpha Smartphone. To power off, press and hold the side button and either volume button, then swipe to power off on the screen.

Using Facial Recognition: Unlock your CubeTriangle Alpha Smartphone with facial recognition by looking directly at the front camera. Ensure proper lighting conditions for optimal performance.

Charging the Device: Charge your CubeTriangle Alpha Smartphone using the provided USB-C cable and power adapter. Connect the cable to the device, and plug the adapter into a power source. Enjoy fast charging with the 65W capability for quick and efficient charging.

Capturing Photos: Activate the camera by opening the Camera app or using the dedicated shortcut. Use the triple-lens camera system for high-quality photos. Experiment with different modes and settings for a personalized photography experience.

Customizing Display Settings: Adjust the display settings of your CubeTriangle Alpha Smartphone by navigating to 'Settings' and selecting 'Display.' Customize features such as brightness, color balance, and screen timeout to suit your preferences.

CubeTriangle Beta Smartwatch:

Pairing with Smartphone: To pair your CubeTriangle Beta Smartwatch with your smartphone, ensure Bluetooth is enabled on both devices. Open the CubeTriangle app on your smartphone, navigate to 'Devices,' and follow the on-screen instructions to complete the pairing process.

Monitoring Heart Rate: Track your heart rate using the CubeTriangle Beta Smartwatch. Open the 'Health' app on the smartwatch, select 'Heart Rate,' and wait for the sensor to provide real-time heart rate data. Regularly monitor your heart rate for a comprehensive health overview.

Changing Watch Faces: Personalize your CubeTriangle Beta Smartwatch by changing watch faces. Press and hold the watch face, then swipe left or right to browse available options. Select your preferred watch face to customize the look of your smartwatch.

Using GPS for Outdoor Activities: Enhance your outdoor activities by using the built-in GPS on the CubeTriangle Beta Smartwatch. Open the 'Exercise' app, select your activity, and enable GPS tracking for accurate distance and location data.

Making Contactless Payments: Enable contactless payments on your CubeTriangle Beta Smartwatch by adding your preferred payment method in the CubeTriangle app. Hold the watch close to the payment terminal to complete transactions securely.

CubeTriangle Gamma Home Hub:

Setting up Voice Control: Activate voice control on your CubeTriangle Gamma Home Hub by saying 'Hey CubeTriangle.' Follow the on-screen prompts to train the device to recognize your voice. Use voice commands to control smart home devices and access information.

Connecting Smart Home Devices: Pair CubeTriangle Gamma Home Hub with your smart home devices by navigating to 'Settings' and selecting 'Device Pairing.' Follow the on-screen instructions to connect devices using Zigbee, Z-Wave, or Wi-Fi. Enjoy centralized control through the touchscreen interface.

Customizing Facial Recognition: Optimize CubeTriangle Gamma Home Hub's facial recognition by adding users in the 'Security' section of the settings. The device will learn and recognize faces for personalized settings and access control.

Creating Automation Rules: Simplify your daily routines by creating automation rules on CubeTriangle Gamma Home Hub. Access the 'Automation' menu, and set conditions and actions for various devices. Enjoy a smarter, more efficient home environment.

Monitoring Energy Consumption: Stay informed about energy usage with CubeTriangle Gamma Home Hub's energy monitoring feature. Access 'Energy' in the settings to view real-time and historical data. Identify energy-hungry devices and optimize usage for efficiency.

CubeTriangle Delta Earbuds:

Pairing with Smartphone: To pair your CubeTriangle Delta Earbuds with your smartphone, open the charging case, ensure Bluetooth is enabled on your device, and select 'CubeTriangle Delta' from the available devices list. Once paired, the earbuds will automatically connect when removed from the case.

Using Touch Controls: Control playback, calls, and more with touch controls on CubeTriangle Delta Earbuds. Tap once to play/pause, double-tap to skip tracks, and triple-tap to access voice assistant. Customize controls in the CubeTriangle app for a personalized experience.

Checking Battery Status: Monitor the battery status of CubeTriangle Delta Earbuds using the CubeTriangle app or checking the LED indicators on the charging case. Enjoy up to 8 hours of playback with an additional 24 hours provided by the charging case.

Activating Low Latency Mode: Enhance your gaming and video experience by activating the Low Latency Mode on CubeTriangle Delta Earbuds. Access the 'Audio Settings' in the CubeTriangle app and toggle the Low Latency Mode for minimal audio delay.

Ensuring Water Resistance: CubeTriangle Delta Earbuds feature an IPX4 water and sweat resistance rating. Use them confidently during workouts or in light rain. Avoid submerging the earbuds in water to maintain their functionality.

CubeTriangle Epsilon VR Headset:

Adjusting Head Strap: Ensure a comfortable fit by adjusting the head strap on CubeTriangle Epsilon VR Headset. Loosen or tighten the straps until the headset rests securely on your head. This ensures an immersive and enjoyable virtual reality experience.

Connecting to PC or Gaming Console: Connect CubeTriangle Epsilon VR Headset wirelessly to your PC or gaming console for an immersive gaming experience. Follow the pairing instructions in the user manual or use the included USB-C cable for a wired connection.

Using Spatial Audio and Microphone: Experience spatial audio and use the integrated microphone on CubeTriangle Epsilon VR Headset for a fully immersive communication and gaming experience. Adjust audio settings in the VR environment to suit your preferences.

Exploring 6 Degrees of Freedom: Enjoy an immersive experience with CubeTriangle Epsilon VR Headset's six degrees of freedom. Move freely in all directions and interact with virtual environments for a truly captivating VR experience.

CubeTriangle Zeta Drone:

Unfolding and Preparing for Flight: Unfold the CubeTriangle Zeta Drone to its full configuration. Ensure the propellers are securely attached. Power on the drone by pressing the designated button. Wait for the drone to complete its self-check process.

Flight Control with Companion App: Download and install the CubeTriangle Zeta Drone companion app on your smartphone. Connect the drone to the app via Wi-Fi. Use the app for real-time camera feed, flight control, and access additional features such as GPS tracking and obstacle avoidance.

Capturing Stunning Aerial Footage: Lift off the CubeTriangle Zeta Drone and use the app to control the 4K HDR camera with 3-axis gimbal stabilization. Capture breathtaking photos and videos. Experiment with different camera settings for optimal results.

Smart Features: Explore smart features like obstacle avoidance and GPS tracking. Allow the drone to autonomously navigate around obstacles and use GPS tracking for precise location awareness. Use the app to set waypoints and enjoy hands-free flying.

Landing and Folding for Transport: When the flight is complete, safely land the CubeTriangle Zeta Drone. Power off the drone and carefully fold it into its compact form for easy transport. Store it in the provided carrying case for added protection.

CubeTriangle Eta Smart Thermostat:

Installation and Setup: Install the CubeTriangle Eta Smart Thermostat following the provided user manual. Connect it to your HVAC system and power source. Download the CubeTriangle app on your smartphone and follow the in-app instructions to set up the thermostat.

Remote Control via Smartphone App: Use the CubeTriangle app to remotely control the Eta Smart Thermostat. Adjust temperature settings, set schedules, and monitor your home's climate from anywhere. Enjoy the convenience of a comfortable home environment.

Learning Capabilities: Allow the Eta Smart Thermostat to learn your heating and cooling preferences over time. The thermostat will optimize settings to maximize comfort and energy efficiency based on your daily routine.

Energy Usage Reports: Access energy usage reports through the CubeTriangle app. Monitor your heating and cooling consumption and receive recommendations on how to save energy and reduce costs.

Sleek Touch-Sensitive Controls: Interact with the thermostat using its sleek touch-sensitive controls. Easily adjust temperature, switch modes, and access settings directly on the device.

CubeTriangle Theta Electric Scooter:

Powering On and Riding: Power on the CubeTriangle Theta Electric Scooter by pressing the power button. Kick off and use the handlebar throttle to accelerate. Enjoy a smooth and efficient ride with the 350W motor and reach a top speed of 20 mph.

Regenerative Braking System: Utilize the regenerative braking system by squeezing the brake lever. This system not only slows down the scooter but also recharges the battery, enhancing overall energy efficiency.

Monitoring Battery Life: Check the battery status regularly on the scooter's display. Charge the scooter using the provided charger when needed. The CubeTriangle Theta provides a 15-mile range on a single charge.

Foldable Design for Portability: Easily fold the CubeTriangle Theta Electric Scooter for convenient portability and storage. Carry it effortlessly or store it in a compact space when not in use.

Safety Features: Ensure safety during rides with the built-in LED headlight and taillight. Ride with visibility, especially in low-light conditions. Follow local traffic laws and wear appropriate safety gear.

CubeTriangle Iota Fitness Tracker:

Wearing and Activating: Wear the CubeTriangle Iota Fitness Tracker on your wrist. Activate the tracker by pressing the side button. Follow the on-screen instructions to pair it with your smartphone via Bluetooth.

All-Day Activity Tracking: Allow the Iota Fitness Tracker to monitor your daily activities, including steps taken, distance traveled, and calories burned. Access this information through the CubeTriangle app.

Sleep Monitoring and Silent Alarm: Wear the fitness tracker while sleeping to monitor sleep patterns. Set a silent alarm through the app to wake up with gentle vibrations on your wrist, ensuring a peaceful morning.

Waterproof Design: The CubeTriangle Iota Fitness Tracker is waterproof, allowing you to wear it while swimming or showering. The tracker is designed to withstand water exposure, providing versatility for various activities.

Smartphone Notifications and Music Control: Receive notifications from your smartphone directly on the fitness tracker. Control music playback on your phone through the tracker's interface, enhancing your workout experience.

CubeTriangle Kappa Portable Speaker:

Powering On and Pairing: Press and hold the power button to turn on the CubeTriangle Kappa Portable Speaker. Activate Bluetooth on your device and pair it with the speaker using Bluetooth 5.0 for

a stable connection. The speaker supports multi-device pairing, allowing seamless switching between devices.

360-Degree Sound Experience: Enjoy immersive 360-degree sound with deep bass. Place the CubeTriangle Kappa in the center of your space to maximize the surround sound experience. Adjust volume and playback controls directly on the speaker.

Hands-Free Calls with Built-in Microphone: Answer and make calls hands-free using the built-in microphone. When a call comes in, press the call button on the speaker to answer. The IP67 rating ensures resistance to dust and water, providing durability for outdoor use.

Long Battery Life and USB-C Charging: The CubeTriangle Kappa offers up to 12 hours of playtime on a single charge. Recharge the speaker using the included USB-C cable. The LED indicator will show the charging status, and a full charge takes approximately [insert time] hours.

Rugged Design for Durability: The speaker features a rugged design, making it suitable for various environments. The IP67 rating ensures dust and water resistance. Take your CubeTriangle Kappa anywhere, from the beach to outdoor adventures.

CubeTriangle Lambda Smart Glasses:

Powering On and Pairing: Press and hold the power button on the CubeTriangle Lambda Smart Glasses to turn them on. Activate Bluetooth on your smartphone and pair it with the glasses for a seamless connection.

Augmented Reality Display: Experience augmented reality with navigation prompts directly on the display. Swipe and tap on the side of the glasses to interact with virtual elements. Follow prompts for directions, information, and more.

Voice-Activated Controls: Utilize voice commands for hands-free control. Activate the voice control feature by saying the wake word. Capture photos or record videos by using voice commands such as "Take a picture" or "Start recording."

Photo and Video Capture: Capture the moment with the built-in camera. Press the designated button or use voice commands to take photos or record videos. The CubeTriangle Lambda Smart Glasses store media directly on the device for easy retrieval.

All-Day Battery Life and Magnetic Charging: Enjoy a full day of use with the CubeTriangle Lambda's long battery life. Charge the glasses using the magnetic charging cable included in the package. The LED indicator will show the charging status.

CubeTriangle Mu Wireless Charger:

Placing Devices for Charging: Place Qi-compatible devices on the CubeTriangle Mu Wireless Charger's non-slip surface for effortless charging. Ensure the device is centered on the charger to optimize charging efficiency.

Fast Charging with LED Indicator: Experience fast charging with up to 15W output. The minimalist design includes an LED indicator that shows the charging status. A solid blue light indicates charging, and it turns green when the device is fully charged.

Sleek and Minimalist Design: The CubeTriangle Mu Wireless Charger features a sleek and minimalist design, complementing any workspace or tabletop. The compact form factor makes it easy to integrate into your daily routine.

Overcharge and Overheating Protection: Rest easy knowing that your devices are protected with overcharge and overheating safeguards. The CubeTriangle Mu Wireless Charger prioritizes the safety of your devices during the charging process.

CubeTriangle Nu Smart Lock:

Installation and Setup: Install the CubeTriangle Nu Smart Lock on your door following the provided instructions. Download the CubeTriangle app on your smartphone and follow the in-app setup to pair the lock with your device.

Keyless Entry Options: Enjoy keyless entry through various options: use your smartphone, enter a secure code on the keypad, or utilize the fingerprint scanner for quick and secure access. The smart lock supports multiple user profiles.

Remote Access and Guest Passcodes: Gain remote access to your CubeTriangle Nu Smart Lock via the app. Generate guest passcodes for visitors, ensuring convenient and temporary access. Receive notifications for lock and unlock activities.

Activity Log and Tamper Alerts: Keep track of lock activities through the CubeTriangle app's activity log. Receive tamper alerts if any unauthorized attempts or tampering with the lock are detected. Stay informed about the security of your home.

Long Battery Life with Notification: The CubeTriangle Nu Smart Lock boasts long battery life. Receive a low battery notification through the app when it's time to replace the batteries. The lock operates on standard batteries for easy maintenance.

CubeTriangle Xi Smart Blender:

Powering On and Variable Speed Control: Press the power button to turn on the CubeTriangle Xi Smart Blender. Use the variable speed control dial to adjust the blending speed according to your preference. Start with a lower speed and gradually increase for smooth results.

Pre-Programmed Settings: Explore the pre-programmed settings for smoothies, soups, and more. Select the desired setting, and the blender will automatically adjust the speed and blending time for optimal results. Enjoy hassle-free blending with just one touch.

Nutrient Extraction Technology: Benefit from nutrient extraction technology for healthier drinks. The CubeTriangle Xi Smart Blender is designed to break down ingredients and extract nutrients, ensuring your beverages are not only delicious but also nutritious.

Voice Control Through Smart Home Assistants: Connect the CubeTriangle Xi Smart Blender to your smart home assistant for convenient voice control. Simply use voice commands to start or stop blending, adjust speed, or select pre-programmed settings.

Easy Cleaning with Dishwasher-Safe Parts: After use, disassemble the blender and place the removable parts in the dishwasher for easy cleaning. The CubeTriangle Xi Smart Blender is designed with dishwasher-safe components for quick and convenient maintenance.

CubeTriangle Omicron Smart Mirror:

Powering On and Gesture Control: Power on the CubeTriangle Omicron Smart Mirror using the touch-sensitive button. Navigate through modes using gesture control – swipe left or right to switch between fitness and makeup modes.

Interactive Display: Experience an interactive display with fitness and makeup modes. In fitness mode, access workout routines and track progress. In makeup mode, enjoy virtual makeup try-ons and tutorials for a personalized beauty experience.

Voice Control for Hands-Free Operation: Connect the CubeTriangle Omicron Smart Mirror to your smart home assistant for hands-free voice control. Use voice commands to switch modes, adjust settings, or access specific features without touching the mirror.

Integration with Health Apps: Integrate the smart mirror with health apps on your smartphone. Track fitness progress, monitor health metrics, and receive personalized recommendations. The CubeTriangle Omicron is your companion for a holistic well-being journey.

LED Lighting with Adjustable Brightness: Illuminate your reflection with adjustable LED lighting. Control the brightness level to create the perfect ambiance in your bathroom. The sleek design of the CubeTriangle Omicron Smart Mirror complements any modern decor.

CubeTriangle Pi Action Camera:

Powering On and Video Recording: Power on the CubeTriangle Pi Action Camera by pressing the dedicated button. Start recording 4K 60fps videos with HyperSmooth stabilization for smooth and clear footage. The one-button simplicity ensures easy operation.

Waterproof Design: Enjoy underwater adventures with the CubeTriangle Pi Action Camera, waterproof up to 10 meters without the need for a case. Capture stunning moments while snorkeling, swimming, or engaging in water sports.

Live Streaming and Webcam Mode: Use the CubeTriangle Pi for live streaming capabilities. Connect the camera to your smartphone and share your adventures in real-time. Switch to webcam mode for virtual meetings and video calls.

Voice Control and GPS Tagging: Activate voice control to operate the camera hands-free. Use voice commands to start/stop recording or capture photos. The CubeTriangle Pi Action Camera features GPS and motion sensors to tag and track your adventures.

CubeTriangle Rho Robotic Vacuum:

Powering On and Smart Navigation: Power on the CubeTriangle Rho Robotic Vacuum using the onboard button. The vacuum utilizes smart navigation with room mapping to efficiently clean your home. Allow it to scan and plan its route for optimal coverage.

App Control for Scheduling and Spot Cleaning: Download the CubeTriangle app and connect it to the Rho Robotic Vacuum. Schedule cleaning sessions, set preferences, and activate spot cleaning for targeted areas. Enjoy the convenience of app control.

Auto-Return to Charging Dock: The CubeTriangle Rho automatically returns to its charging dock when the battery is low. Ensure the charging dock is placed in a convenient location, and the vacuum will autonomously recharge, ready for the next cleaning session.

Voice Control Through Smart Home Assistants: Integrate the robotic vacuum with your smart home assistant for voice control. Use voice commands to start or stop cleaning, ask for the vacuum's status, or send it back to the charging dock.

CubeTriangle Sigma Smart Coffee Maker:

Programming Brewing Schedules: Press the "Program" button on the CubeTriangle Sigma Smart Coffee Maker to set your preferred brewing schedule. Use the display interface to choose the desired time for the coffee maker to start brewing automatically.

Adjustable Strength Control: Customize your coffee strength using the strength control feature. Select your preferred strength level on the display before starting the brewing process. Experiment with different settings to find the perfect brew for your taste.

Built-in Grinder for Fresh Coffee Beans: Load fresh coffee beans into the built-in grinder for a rich and aromatic brew. Adjust the grind settings to achieve the desired coarseness. The CubeTriangle Sigma ensures that you enjoy the full flavor of freshly ground coffee.

Smart Home Integration: Connect the CubeTriangle Sigma to your smart home system for voice-activated brewing. Use voice commands with your preferred smart assistant to start brewing without lifting a finger.

Keep-Warm Feature and Auto-Shutoff: Activate the keep-warm feature to maintain the temperature of your brewed coffee. For safety and energy efficiency, the CubeTriangle Sigma includes an auto-shutoff function after a set period of inactivity.

CubeTriangle Tau Electric Bike:

Powering On and Riding Modes: Power on the CubeTriangle Tau Electric Bike using the integrated display. Choose between pedal assist and throttle modes for a personalized riding experience. Adjust the level of pedal assist based on your desired level of assistance.

Removable Battery and Range Indicator: Remove the battery for convenient charging. The CubeTriangle Tau provides a range of 40 miles on a single charge. Monitor the battery life through the display, ensuring you have sufficient power for your journey.

Integrated Display for Information: Keep track of your speed, distance traveled, and battery life on the integrated display. Easily navigate through different functions using the intuitive controls on the handlebar.

Shimano Gears and Hydraulic Disc Brakes: Shift smoothly between gears with the Shimano transmission system. Enjoy responsive and reliable braking with the hydraulic disc brakes, ensuring a safe and controlled riding experience.

Lightweight Aluminum Frame: The CubeTriangle Tau features a lightweight aluminum frame with a sleek design. Enjoy a comfortable and stylish ride while easily maneuvering through various terrains.

CubeTriangle Omega Smart Refrigerator:

Customizable Temperature Zones: Adjust the temperature zones inside the 22 cu ft. CubeTriangle Omega Smart Refrigerator to suit different types of food. Use the touchscreen interface to set specific temperature levels for optimal freshness.

Touchscreen Interface with Recipe Suggestions: Access the touchscreen interface for recipe suggestions based on the contents of your refrigerator. Browse through a variety of recipes and get inspiration for your next meal. The CubeTriangle Omega helps you make the most of your ingredients.

Inventory Tracking with Interior Cameras: View the contents of your refrigerator remotely via the smartphone app. The interior cameras provide a clear view, helping you keep track of your inventory and make informed grocery shopping decisions.

Energy-Efficient Design with Rapid Cool and Freeze Functions: Utilize the energy-efficient design of the CubeTriangle Omega. Activate the rapid cool and freeze functions when loading groceries, ensuring that your food reaches the desired temperature quickly and efficiently.

Smart Home Integration for Remote Adjustments: Connect the CubeTriangle Omega to your smart home system for remote adjustments. Change temperature settings, receive notifications about door status, and enjoy the convenience of a smart and connected kitchen.

CubeTriangle Psi Wireless Sound System:

High-Fidelity Audio with 360-Degree Sound Projection: Experience high-fidelity audio with 360-degree sound projection. Place the CubeTriangle Psi Wireless Sound System in the center of the room for an immersive listening experience.

Multi-Room Sync for Seamless Listening: Synchronize multiple CubeTriangle Psi units for a seamless listening experience throughout your home. Enjoy consistent audio quality in every room, creating a harmonious atmosphere.

Voice Control Compatibility: Connect the sound system to major smart assistants for voice control. Use voice commands to adjust volume, skip tracks, or switch between input sources without needing a remote.

Durable, Sleek Design with Touch Controls: The CubeTriangle Psi features a durable and sleek design, complementing any room. Control playback, adjust settings, and manage volume using the intuitive touch controls on the device.

Easy Setup with Wi-Fi and Bluetooth Connectivity: Set up the CubeTriangle Psi with ease using Wi-Fi or Bluetooth connectivity options. Connect to your preferred device and start enjoying high-quality audio in minutes.

CubeTriangle Chi Electric Skateboard:

Powering On and Accelerating: Turn on the CubeTriangle Chi Electric Skateboard using the power button on the deck. Use the wireless remote control to accelerate smoothly. Experiment with the trigger for gradual speed increases.

Regenerative Braking and Smooth Ride: Experience regenerative braking by gently pulling back on the remote control trigger. The CubeTriangle Chi utilizes shock-absorbing wheels for a smooth ride, enhancing stability and comfort during your journey.

Durable and Waterproof Deck: The durable deck of the CubeTriangle Chi is waterproof, allowing you to ride confidently in various weather conditions. Integrated LED safety lights enhance visibility, ensuring a safe and stylish ride.

Wireless Remote Control: Control your speed effortlessly with the wireless remote. Use the intuitive controls to accelerate, brake, and navigate. The remote is designed for ease of use, providing a seamless riding experience.

Companion App for Route Tracking: Enhance your riding experience with the CubeTriangle companion app. Track your routes, monitor battery levels, and access additional features for a personalized and connected electric skateboard experience.

CubeTriangle Phi Smart Air Purifier:

Powering On and Real-Time Air Quality Monitoring: Power on the CubeTriangle Phi Smart Air Purifier using the control panel. Benefit from true HEPA filtration and real-time air quality monitoring. The display provides visual feedback on the current air quality.

Quiet Operation with Sleep Mode: Enjoy quiet operation during the day, and activate sleep mode for undisturbed rest at night. The CubeTriangle Phi adjusts its operation based on the ambient conditions, ensuring optimal purification without unnecessary noise.

Smart Sensors for Automatic Adjustment: Utilize smart sensors to automatically adjust purification levels based on the detected air quality. The CubeTriangle Phi optimizes its performance to provide clean and fresh air tailored to your surroundings.

Voice and App Control: Control the air purifier using voice commands or the dedicated app. Schedule purification cycles, monitor filter life, and operate the device remotely for convenient and efficient air quality management.

Sleek, Modern Design: The CubeTriangle Phi features a sleek and modern design that complements any room décor. Place it discreetly in your living space to enjoy clean air without compromising on style.

CubeTriangle Ksi 4K Action Cam:

Powering On and Video Recording: Power on the CubeTriangle Ksi 4K Action Cam by pressing the power button. Capture Ultra HD 4K video at 60fps with electronic image stabilization for smooth and clear footage. Use the dedicated button for easy recording.

Waterproof and Adventure-Ready Build: The CubeTriangle Ksi is waterproof up to 15 meters without the need for an external case. Enjoy underwater adventures and confidently record in challenging environments with its rugged, adventure-ready build.

Dual-Screen Design and Selfie Mode: Take advantage of the dual-screen design for easy framing. Switch to selfie mode for capturing your adventures. The CubeTriangle Ksi ensures you get the perfect shot every time.

Live Streaming and Social Media Integration: Enable live streaming support to share your experiences in real-time. Connect the CubeTriangle Ksi to your social media accounts for seamless sharing of your action-packed moments with friends and followers.

Long-Lasting Battery and Fast Charging: The CubeTriangle Ksi comes with a long-lasting battery for extended recording sessions. Charge the camera quickly using the provided cable for minimal downtime between adventures.

CubeTriangle Pi-2 Smart Fitness Equipment:

Interactive Home Gym System: Set up the CubeTriangle Pi-2 Smart Fitness Equipment in your home gym space. Connect it to your Wi-Fi network and follow the on-screen instructions for initial setup. Enjoy an interactive fitness experience with AI-powered workout guidance.

Automatic Resistance Adjustment: The CubeTriangle Pi-2 automatically adjusts resistance levels based on your fitness level and goals. Customize your workout plan, and the equipment adapts to provide a challenging and effective exercise routine.

Live and On-Demand Classes: Access live and on-demand classes led by professional trainers. Follow guided workouts tailored to your preferences and fitness goals. Stay motivated with engaging sessions that cater to various exercise styles.

Compact and Foldable Design: The CubeTriangle Pi-2 features a compact and foldable design for easy storage in any space. Fold and unfold the equipment effortlessly, making it suitable for apartments, small rooms, or homes with limited workout space.

Integrated Health Tracking and Goal Setting: Monitor your health and fitness progress with integrated health tracking features. Receive progress reports on your performance and set personalized fitness goals through the CubeTriangle Pi-2 app for a comprehensive fitness journey.

CubeTriangle Omicron-2 Smart Makeup Mirror:

Powering On and Adjusting LED Lighting: Power on the CubeTriangle Omicron-2 Smart Makeup Mirror using the touch-sensitive button. Adjust the LED lighting to your preference by swiping across the touchscreen interface. Achieve high-definition clarity for flawless makeup application.

Virtual Makeup and Skincare Tutorials: Access virtual makeup and skincare tutorials with AR technology through the CubeTriangle Omicron-2 app. Follow step-by-step guides for different looks and learn personalized skincare routines for radiant skin.

Skin Analysis and Product Recommendations: Utilize the skin analysis feature for personalized product recommendations. The CubeTriangle Omicron-2 assesses your skin condition and suggests suitable makeup and skincare products to enhance your beauty routine.

Touchscreen Interface with Social Media Connectivity: Connect the mirror to your social media accounts through the touchscreen interface. Share your makeup looks directly, enhancing your social media presence. Use the mirror to capture the perfect beauty shots effortlessly.

Elegant Design for Vanity or Bathroom: The CubeTriangle Omicron-2 boasts an elegant design that elevates any vanity or bathroom. Enhance your space with a stylish and functional smart makeup mirror that complements your aesthetic.

CubeTriangle Upsilon-2 Mini Projector:

Powering On and Adjusting Settings: Power on the CubeTriangle Upsilon-2 Mini Projector and navigate through the settings using the touchscreen interface. Adjust the projection mode, resolution, and other preferences for a customized viewing experience.

Wireless Casting from Devices: Connect your smartphone, tablet, or laptop to the CubeTriangle Upsilon-2 via wireless casting. Share presentations, videos, or photos seamlessly, making it an ideal device for both personal and professional use.

Immersive Audio with Dolby Atmos Support: Enjoy immersive audio with the integrated speakers that support Dolby Atmos. Enhance your movie-watching or presentation experience with rich, clear sound directly from the CubeTriangle Upsilon-2.

Ultra-Portable Design with Rechargeable Battery: The CubeTriangle Upsilon-2 features an ultra-portable design and a built-in rechargeable battery. Take your entertainment or presentations anywhere without the need for a power outlet.

Durable Construction with IPX4 Splash Resistance: The durable construction of the CubeTriangle Upsilon-2 ensures reliability. With an IPX4 splash resistance rating, the projector can withstand accidental spills or light rain, providing peace of mind during outdoor use.

CubeTriangle Sigma-2 Smart Kettle:

Precision Temperature Control: Use the touchscreen controls on the CubeTriangle Sigma-2 Smart Kettle to set the precise temperature for your desired brew. Experience the perfect cup of tea or coffee every time.

Keep-Warm Function: Activate the keep-warm function to maintain the set temperature for up to 60 minutes. Enjoy hot beverages at your leisure without the need for reheating.

Voice and App Control for Remote Boiling: Connect the smart kettle to your preferred smart assistant for voice control. Alternatively, use the CubeTriangle app to control the kettle remotely, schedule boiling times, and receive notifications.

Stainless Steel Design with LED Indicators: The CubeTriangle Sigma-2 features a sleek stainless steel design with LED indicators. Monitor the boiling process and temperature at a glance, adding a touch of modern elegance to your kitchen.

Boil-Dry Protection and Auto-Shutoff: Benefit from safety features like boil-dry protection and auto-shutoff. The CubeTriangle Sigma-2 prioritizes safety by automatically turning off when the water level is too low or when the boiling process is complete.

CubeTriangle Theta-2 Electric Scooter Pro:

Powering On and Riding Modes: Power on the CubeTriangle Theta-2 Electric Scooter Pro using the onboard button. Select your riding mode based on your preference – choose between standard and sport modes for a customized experience.

Enhanced 500W Motor and Top Speed: Experience an enhanced 500W motor that propels the scooter to a top speed of 25 mph. Enjoy a swift and efficient commute, reaching your destination with speed and style.

Extended 20-Mile Range with Fast Charging: The CubeTriangle Theta-2 provides an extended 20-mile range on a single charge. Utilize fast-charging battery technology for a quick recharge between rides, ensuring your scooter is ready for your next adventure.

Advanced Suspension System: Cruise comfortably on urban terrain with the advanced suspension system. The CubeTriangle Theta-2 Electric Scooter Pro absorbs shocks and vibrations, providing a smooth and enjoyable ride.

Smart Dashboard Display with Navigation: Access essential information on the smart dashboard display. Monitor your speed, battery stats, and navigate through the city with ease. Stay informed and in control while riding your CubeTriangle Theta-2.
